

Preventli for IWN

Everything you need to manage worker health and safety — from the moment someone is hired to the moment they leave, in one platform.

Live today

- **Pre-employment screening** — baseline health, functional capacity, medical screening, fitness for duty, psychological assessment, and substance screening. Doctor-reviewed, 24-hour turnaround.
- **Exit checks** — a clear health record at the point a worker leaves, protecting both the worker and the organisation.
- **Hazard & incident management** — hazard identification, incident notification, and action tracking through to close-out, with reporting built in.

On the roadmap

Built directly from what water authorities have told us they need next:

- **Contractor management** — contractor records and qualification/certification uploads, so contractor compliance sits alongside your own workforce data.

Not yet available — in development.

Proven at Lower Murray Water

Since adopting Preventli, LMW's TRIFR has fallen from 28.7 to a historic low of 5.12 — the first time in the organisation's history below 10 — alongside a 9% reduction in WorkCover premium.

Pricing

\$49 per check, flat, across every check type. No monthly minimums, no hidden fees.

Preventli — WorkCover claims made preventable. Built on 30 years of WorkCover expertise and 3,000+ cases managed.
